PUBLIC CHARGE

Fact Sheet:

What you Need to Know About the New Federal Public Charge Rule and Health Insurance (Updated 1/31/2020)

1. When does the new Public Charge Rule go into effect?

The Department of Homeland Security announced that the new Public Charge Rule will apply to benefits received on or after February 24, 2020.

2. Does enrolling in free or low-cost health insurance make me a Public Charge?

Most health insurance coverage is not a factor in the new Public Charge test. Only federally-funded Medicaid is included, and even for this program there are several exempt groups of people who are excluded under the rule, including pregnant women and children under 21. Additionally, asylees, refugees, and visa holders who are victims of trafficking and other crimes, among others, are entirely exempt from the Public Charge Rule.

The following programs are not included in the Public Charge Rule:

- Essential Plan - at any level - even if the premium is free
- Child Health Plus at any level – even if the premium is free
- Qualified Health Plan at any level – even if the premium is free with premium tax credits

3. Does enrollment in Medicaid make me a public charge?

It is important to understand that Medicaid coverage for most immigrants is not included in the new Public Charge test. Only federally-funded Medicaid is included, and many categories are exempt under the rules.

In New York, most immigrants are enrolled in the Essential Plan and are not impacted by the Public Charge test. Of the limited number of immigrants who have Medicaid, most are enrolled in Medicaid that is fully funded by the State, not the federal government.

This coverage is also not included as a factor under the new rule. If you are not sure what type of coverage you have, call the NY State of Health helpline at 1- 855-355-5777.

4. My children have Medicaid, will that make me a Public Charge?

No. Enrollment of children or other family members in Medicaid does not count as a factor in a Public Charge test.

5. I have Emergency Medicaid. Will using my coverage make me a Public Charge?

No. Emergency Medicaid is not included as a benefit under the new Public Charge Rule.

6. When the Public Charge rule goes into effect, will it be retroactive?

No. The Department of Homeland Security has announced that the new Public Charge Rule will only apply to benefits received on or after February 24, 2020.

If you are worried about whether the Public Charge Rule applies to you or your family specifically, speak with an immigration expert.
